

DR. ELIOT'S BOOKS.
Arranged at Wallingford Public Library on Separate Shelf.

At the Wallingford public library several volumes have been set aside and form a case by themselves. A card bears the inscription, "Dr. Eliot's Shelf of Books." The list follows:

BEING A TRAILER.

Moosup Motorist Got a Tow That Meant Going Some.

The owner of a disabled automobile does not always have such an experienced driver in good stead as his machine got back on him near Putnam one evening this week. While the owner of the disabled fly producer was thinking of his car, the car refused to run, the big auto of George McLean of Chicago, who is spending the summer in Brookfield, came along. Mr. McLean, who is a native of Putnam, accepted the offer to be towed into Danielson and a rope of liberal length was produced and a connection between the two cars was made.

The McLean car is a six-cylinder, 20-horsepower, 1928 model, and has a 200-horsepower engine. A little thing like another car of ordinary size hitched on behind does not hinder its speed, and the tow was made with ease and when the chauffeur let her out, the man behind realized that he was beginning the ride of his life. They only left the very light place on the way down to Danielson.
